The University of Melbourne
Department of Computer Science and Software Engineering
433-254 Software Design
Semester 2, 2003

Lab 8
Week 9

1. Develop an applet that receives three numeric values as dynamic input from the user and then displays the largest of the three on the screen. Write a HTML page and test the applet.

2. Write a Java applet program that draws a Pie Char of Number of Students Registered in various departments at 2nd year level within the University of Melbourne. Please access input that are passed through PARAM statements in HTML.

   Hint: Each pie can be drawn using drawArc() or fillArc() method.
